Office Action Summary	Application No. 10/526,368	Applicant(s) MIYAZAKI ET AL.	
	Examiner Frederick C. Nicolas	Art Unit 3754	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1,3-4,10-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Mackles 4,342,522.

Mackles discloses a backflow preventing plug as seen in Figure 1, which comprises a thin film resilient membrane (16) defining a flow path having an intake port and an outlet port (26), and a ball-shaped plug member (14) retained between the intake port and the outlet port in the flow path in the resilient membrane and formed with a spherical sealing surface for restricting flow of fluid by coming into resilient contact with a middle portion of the resilient membrane as seen in Figure 1, clearance forming means comprising a plurality of projection portions (28) each of which has a shape of projection and which are located at such positions on an inner surface of the resilient membrane as to be closer to the outlet port than a center of the ball-shaped plug member and to be apart from each other and substantially symmetrically located about a circumferential surface of the ball-shaped member as seen in Figures 1-4, a container (12), the plug member has a spherical or an ellipsoidal shape as seen in Figures 1 and 2.

Allowable Subject Matter

3. Claims 2,5,7,12-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Matsumoto et al. 7,490,744 disclose other type of backflow preventing plug.

Response to Arguments

5. Applicant's arguments filed 8/31/2009, traversing the restriction requirement and requesting that claims 1-5,7 and 10-24 be examined on the elected embodiment, have been fully considered and found persuasive. Therefore, claims 1-5,7 and 10-24 have been examined. Further, applicant's arguments with respect to claims 1-13,18-19 have been considered but are moot in view of the new ground(s) of rejection.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frederick C. Nicolas whose telephone number is (571)-272-4931. The examiner can normally be reached on Monday - Friday from 9:00 AM to 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kevin P. Shaver, can be reached on 571-272-4720. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
